SKILLS

Languages: C, C++, Java, Python, JavaScript, PHP
Framework: React.js, Node.js, Express.js
Frontend Technologies: HTML, CSS
Database: MySQL, MongoDB
Tools/Platforms: VS Code, Excel, Google Colab
Soft Skills: Adaptability, Problem-Solving, Critical Thinking

PROJECTS

AIVA | AI-Powered Anxiety Relief Bot | [link](#)

Mar' 25

- Built an intuitive and calming front-end interface with clean layouts, appealing visuals, and smooth animations to make the experience more comfortable and engaging for users.
- Created smart, conversational JavaScript logic that delivers personalized coping tips, breathing exercises, and mood-based recommendations.
- Improved overall app performance by writing clean, modular, and cross-browser-friendly code that keeps everything fast and easy to access.

TECH STACK: HTML, CSS, JavaScript

Eco-Power Solutions | E-Commerce Website | [link](#)

Mar' 25

- Developed an interactive e-commerce website using PHP and MySQL with product listing, cart and checkout features.
- Designed a responsive front-end using HTML, CSS, and JavaScript to improve user experience and accessibility.
- Implemented secure user authentication, session management, and form validation for better data accuracy.
- Applied full-stack web development principles to build a functional and dynamic online shopping platform.

TECH STACK: HTML, CSS, JavaScript, PHP, MySQL

TRAINING

CSE Pathshala | [link](#)

Jun' 25 – Jul' 25

C Programming Language

- Executed fundamental C programming concepts including pointers, arrays, functions, and memory management to build efficient and reliable console-based applications.
- Applied core data structures such as arrays, stacks, queues, and linked lists to solve structured programming challenges in C.
- Strengthened foundational problem-solving skills by writing modular C programs, analyzing time complexity, and improving code structure and clarity.
